Art Unit: 2815

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 37-52, drawn to a semiconductor circuit module, classified in class
 257, subclass 414.
- Claims 25-36, drawn to a method of making a redundancy structure,
 classified in class 438, subclass +1.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case unpatenability of Group I invention would not necessarily imply unpatenability of Group II invention, since the product of Group I invention could be made by a process materially different from that of group II Invention. For example, as an alternative to claim 25, forming a patterned connection layer; selectively applying the front sides of the circuit devices to the patterned connection layer; applying the filler between the circuit device; and applying the electrical connection device to connect the circuit device without using a transfer substrate.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, the

Art Unit: 2815

search required for Group II is not required for Group I and separate examination would be required, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph Nguyen whose telephone number is (703) 308-1269. The examiner can normally be reached on Monday-Friday, 8:30am-5: 00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Thomas can be reached on (571) 272-1664. The fax phone number for the organization where this application or proceeding is assigned is (703)-308-7382 for regular communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956
